R.O.P. Record Set by Hen of M-S-A Ranch

SEVEN OF FLOCK EXCEEDED 300-EGG MARK IN PERIOD

A record, extraordinary in the history of R.O.P. in British Columbia and Canada, has been set by a Barred Rock pullet from the ranch of Mr. and Mrs. Harry Day of Abbotsford. The record is exceptional in the fact that the bird, whose breed is dual-purpose with the lean to a table bird, out-laid all other breeds. The productive hen laid 339 eggs, averaging 27.1 ounces to the dozen, in a period of one year ending October 30, 1940. The bird was selected from a run of pullets on the Day farm and is indicative of the type of chickens they breed.

There were 100 hens in the Day entry of which 74 per cent were certified with an average egg production of 255.5, the highest officially recorded production of any Barred Rock flock in Canada. The average egg-weight of the certified birds was 26.1 ounces per dozen. Seven of the flock exceeded the 300-egg mark.

Mr. Day points out that the 100 hens in their entry were competing against pens of from 50 to 100 birds, thereby making the contest in averages considerably keener. The record hen, which is registered as Hen No. X13351, weighed 8 1/2 pounds at start of her period and lost but one-quarter of a pound in the strenuous year.

Mr. and Mrs. Day, whose farm is at the intersection of Highway No. 1 and DeLair road in Sumas, have been breeding Barred Rocks for production for five years.

SUMAS COUNCIL TAKES OFFICE

Court of revision of the assessment roll will be held at Sumas Municipal Hall, Whatcom Road, at 10 a.m. on Saturday, Feb. 8 and the first regular council meeting will be held following it. This was decided at the statutory meeting of Sumas council held on Monday morning when Reeve Alex Hougou and members of the council were sworn to office for the ensuing year by Municipal Clerk E. B. McPhail. The entire council was re-elected by acclamation in December. Reeve Hougou announced that the council as a whole will form the board of works committee and that Councilors J. L. Starr and W. G. Fadden will comprise the finance committee. After the council meeting following the court of revision on Feb. 8, regular meetings of the Sumas council will be held at 8 p.m. on the first Friday each month.

ALIEN FINED FOR NON-REGISTRATION

An alien, resident in Sumas municipality, appeared before Magistrate J. W. Winslow this morning and was fined \$10 and costs for failing to register under Canadian National Registration.

SEEK LOWER RATE

At its first meeting of 1941, New Westminster city council passed a motion to ask the B.C. Telephone Co. for a reduction in toll rates to Vancouver. It was pointed out there is no toll charge in the Vancouver area up to eight miles.

May Grant Mennonites Exemption

Indefinite postponement of compulsory military training may be granted conscientious objectors as well as members of the Doukhobor or Mennonite faiths under amendments to the national war services regulations made public in a special edition of Canada Gazette.

But such persons may be called up for training in non-combatant services, or for performance of civilian service or labor, for a period equal to the current training period of their age class.

Applications for postponement of training must be submitted to divisional registrars not later than eight days from the date on which notice is received to report for medical examination.

Recruiting Unit Of Air Force In Abbotsford, 14th

A mobile recruiting unit of the Royal Canadian Air Force will be in Abbotsford on Tuesday of next week. The News is in receipt of this information in a communication from Squadron Leader W. L. Scandrett, Commanding Officer of the Recruiting Office, R.C.A.F.

Applicants who appear before the recruiting unit have to provide themselves with the necessary supporting documents. Normally these documents consist of proof of birth, proof of education and at least two letters of reference as to character, habits and ability from responsible citizens of the community, preferably a former employer. Particulars of these requirements are on file at The News office and may be read by anyone in the M-S-A Area who wishes to appear before the authorities when the unit is in the Men's Club, Abbotsford, from 10 a.m. on Tuesday, Jan. 14.

1941 Council Is Sworn In At Mount Lehman

COUN. SCOTT IS FINANCE CHAIRMAN; COUNCIL WILL MEET FIRST WEDNESDAY

Reeve James Simpson and members of Matsqui's 1941 municipal council were sworn in by Municipal Clerk Pennington at Mount Lehman at the statutory meeting held on Monday morning. Because the electors promoted Reeve Simpson from the 1940 council ranks there is only one new face this year, Robert Sidle of Mount Lehman, Mr. Simpson's successor as representative of Ward Two.

Retiring Reeve George Cruickshank, M.P., was present and expressed his regret at severing his long connection with the council. Reeve Simpson declared the council was equally sorry but expressed the hope that Mr. Cruickshank would be as active at Ottawa on behalf of the Fraser Valley riding as he was active in the reeve's chair on behalf of Matsqui.

In naming his committees for 1941, Reeve Simpson appointed Coun. Wm. Scott to be his successor as chairman of the finance committee. Other members of this committee are Councilors Kettle and Beharrell. Board of Works will be the whole council with the reeve as chairman while Coun. Kettle will represent the council on the Library Board, Councilors Beharrell and Sidle on the M-S-A General Hospital Board, Coun. Kettle on the C.F.V. Fair Board and Coun. Beharrell on the Gifford Fair Board.

Matsqui council meetings will be held in future on the first Wednesday of the month, commencing at 10 a.m.

B.C. RETIRES LOAN MADE 20 YEARS AGO

British Columbia has retired a loan of \$1,361,500, borrowed from the Dominion Government 20 years ago at 5 per cent. interest, for better housing for returned soldiers. Payment was made at Ottawa.

52 M-S-A COWS PRODUCE TON OR OVER OF BUTTERFAT TO DATE

A list of 417 living cows (approximately 5 per cent) on test in provincial cow-testing associations, each of which has produced a ton or more of butterfat up to the end of June, 1939, has been published by the Dairy Branch, Department of Agriculture. Cows on record with the Sumas Cow-Testing Association made a good showing in this respect, 29 qualifying. Matsqui's association members offered 23 cows with a like record. In the list of M-S-A Area cows in the class, given on page three of this issue, owner's name, cow's name, number of milking periods, pounds of milk and pounds of butterfat are shown.

In submitting the list to be published, Mr. Dan Heelas, supervisor of the Sumas C.T.A., points out some of the advantages of continuous testing of cows: Because it is the quickest way to prove your bull through records on all of his daughters. Informs you of the low producers which need to be culled and removed. Gives the transmitting ability of your cows' families so that you will know from which to breed. Shows how efficiently your herd is operating under normal conditions from a breeding standpoint. Centres attention on lifetime production and gives complete lactation records on all cows. Enables the farmer to meet the demand for surplus breeding stock backed by production records. Safeguards the farmer's future as a breeder of pure-bred cattle.

New Rules For Canadians Who Plan U.S. Visits

NO CASH FOR INCIDENTAL EXPENDITURES; CARDS BEING ISSUED AT LINE

Canadian residents on pleasure visits to the United States are no longer allowed any spending money, under a new Canadian government regulation which became effective Jan. 1.

Canadians entering the United States must state in writing that they have no U.S. funds and not over \$5 in Canadian funds in their possession and must promise not to use any of this money during their visit except for transportation or emergencies. Previously, they had not been questioned regarding incidental expenditures up to one dollar.

As a convenience to Canadians living close to the border, who already have their passports, a special social visit card is issued by the Canadian border authorities.

Canadians living inland must make application for a permit to the Foreign Exchange Control Board, or any bank which is the board's authorized dealer.

These new regulations refer to short social visits only, Canadians having legitimate reasons for longer stays and larger expenditures may obtain such permission if the board rules favorably on their applications.

Contrary to the belief expressed locally this week, the social visit cards issued by the Canadian government cannot be used instead of passports for entry into the United States, and passports are required as formerly. Visas must also be obtained from the U.S. consul if the visit is for over 30 days duration.

SNOW FLURRY

The New Year holiday enjoyed the same green background that added to the comfortable enjoyment of the Christmas holiday and it was not until Sunday night, Jan. 5, that what appeared to be a serious fall of snow occurred. While it snowed heavily during the late evening, early risers were surprised to find not an inch of snow on the ground and this was dispelled quickly by bright sunshine which was aided Monday night by a chinook wind and rain.

M-S-A HOSPITAL JR. AUXILIARY TO BE FORMED

A meeting will be held on Tuesday, Jan. 14, at 8 p.m., at the home of Mrs. A. F. Ellis, 1196 Montvue street, Abbotsford, with the hope of forming a junior auxiliary to the M-S-A General Hospital. Miss Kent, president of the junior auxiliary to the hospital at Chilliwack, will be the guest speaker and will outline the work and constitution of the auxiliary. All girls who are interested in this work will be welcome at the meeting.

Price Board Changes Basis Of Butter Peg

PRICE MODIFIED TO BE NOT ABOVE MONTREAL PRICE ON DECEMBER 12

While standing firm in its general butter price, the Wartime Prices and Trade Board on Monday night shaded its recent butter "pegging" order to meet situations on the Pacific Coast and in certain other centres.

On the grounds that prices in Vancouver were lower than elsewhere in Canada last Dec. 12 (prices having been pegged at their level on that date), the board Monday modified its order by stipulating the pegged price on the Pacific Coast "shall not be above parity with Montreal—namely, on a basis of 35 cents per pound for first grade creamery solids."

Had this compromise not been allowed butter would have drained out of B.C. to Eastern Canada where highest Dec. 12 prices prevailed, the Vancouver dairying interests told the board.

CONGREGATIONAL MEETING OF TRINITY UNITED CHURCH

The annual congregational meeting of Trinity United church, Abbotsford, will be held on Monday evening, Jan. 13, at 8 o'clock. Reports will be presented from the Board of Managers, the Women's Association, the Young People, the Sunday School and other groups. The meeting will be held in the church hall and will be followed by refreshments and a social hour.

Miss McPhee Resigns From School Staff

SERIOUS ILLNESS IS CAUSE; OTHER STAFF CHANGES ANNOUNCED

Two unexpected resignations at the close of the Christmas-New Year vacation period increased the staff changes in the M-S-A Educational Area when the schools reopened for the current term on Monday.

New resignations were those of Miss Naomie McPhee and Miss Muriel Anderson, both of Abbotsford Elementary school. Miss McPhee, a popular member of the staff for some years and widely known through her interest and participation in many other community activities, has been seriously ill and resigned under orders of her medical advisor. Miss Anderson resigned to accept a position in Victoria.

Prior to these two resignations, only two staff changes were anticipated, Miss Jennie Foulkes of Mount Lehman being transferred to Division III, North Poplar, succeeding Miss Jose Tebbutt, resigned to be married, and Miss Isabelle Lindsay of Vancouver being appointed to the vacancy in the Mount Lehman school.

To meet the altered conditions, Inspector Towell announces that Miss Jean Fraser is transferred from South Poplar to replace Miss McPhee in Division III at Abbotsford Elementary, and Miss Foulkes succeeds Miss Anderson as primary teacher at the same school instead of going to North Poplar.

The vacancies on the staff of the two Poplar district schools are being filled by Mrs. D. Willan of Abbotsford and Miss M. E. Johnston of Jubilee school. Mrs. Willan, who has been a substitute teacher, has been temporarily appointed to South Poplar for the balance of the term, while Miss Johnston takes charge of Div. III at North Poplar. Miss Helen Cameron of Victoria, who has been teaching in the Omineca district, has been temporarily appointed until June to fill the vacancy at Jubilee school.

Mr. Towell is in receipt of a Department of Education circular from Victoria announcing that, due to complaints from church organizations, that school children have been selling raffle tickets on behalf of the Red Cross and other purposes, such practice must cease. It points out that while the efforts of the children to co-operate in patriotic efforts are to be commended, they must not be allowed to contravene the law which does not recognize raffles or draws.

The annual congregational meeting of the Poplar United church will be held in the church on Tuesday evening, Jan. 14, at 8 o'clock. Reports from the various organizations will be presented.

Abbotsford Youth Just Walked Across the Border

Jacob's Geography Was His Undoing

Twenty-year-old Jacob B. Falk of Matsqui was held at San Mateo, California, for investigation by U. S. immigration authorities Sunday night because he forgot his geography when under judicial questioning, according to a United Press newstory appearing in a Vancouver paper. Falk, who had been working at Melo Park under the name of John Smith, was arrested on complaint of John Canepa, the owner, that Falk had been taking small sums from the cash register. Falk admitted his guilt to Justice of the Peace Edward McAuliffe and asked probation. "If I grant probation, what will you do?" asked the judge. "I'll go back home to Emerson, Wash.," Falk said. "What county is that in?" asked the court. Falk became flustered and under questioning admitted his true name and that his parents took him to Canada from Germany in 1924. "They live in Abbotsford, B. C., now," he said. "I walked across the line one night last March." Falk's family are understood to be residents of Matsqui.

Youths From Coast Stage Crime Wave

STEAL SEVERAL CARS, ENTER HOMES, CHURCH BEFORE APPREHENSION

Two youths of juvenile age and an even younger companion, wards of a Vancouver children's aid organization, staged a junior crime wave in Matsqui during the New Year holiday week and gave owners of several cars and properties as well as local B.C. Police officers a lot of trouble. The older boys appeared in district juvenile court at Chilliwack Monday.

The boys have been living with guardians in Bradner and it was this district which experienced the worst of their depredations. Three cars were stolen and several properties entered. One of the cars, as reported last week in THE NEWS, was speedily recovered by the police when the owner, Ted Fik, reported its loss, and the second car, owned by Mr. Gay, was also recovered in short order. The third car, stolen from C. W. T. Griffiths, conveyed the boys well up the Fraser Canyon before they were apprehended and brought back by B.C. Police. They are also reported to have attempted one night to enter the homes of Mrs. Fred Waring, R. Donaldson, and the St. Margaret's church, Bradner.

The older boys were charged only with the theft of Mr. Griffiths's car, but a list of the depredations to which they are said to have confessed was made known, it is understood, to the court. As the culprits are of juvenile age, their names and other details of their activities may not be published.

ANNUAL MEETING OF TRADE BOARD MONDAY, JAN. 20TH

A preliminary review of 1940 activities indicates that the annual meeting of Abbotsford & District Board of Trade, set for Monday, Jan. 20, will hear very encouraging reports. President H. E. Beeston stated following an executive meeting held Monday night in the office of Secretary M. C. Switzer. It was arranged at this meeting that the annual session would take the form of a dinner to be held at 6.30 p.m. in the Trinity United Church hall, Abbotsford. An interesting program was also arranged and committee chairmen were asked to submit their annual reports to the secretary at once.

The next meeting of the auxiliary will be held at the home of Miss M. Page, Thursday, Jan. 9.

ANNUAL MEETING

The Poplar Farmers' Institute is holding its annual meeting in the Poplar hall Friday, Jan. 10, at 8 p.m. A large turn-out is hoped for to formulate plans for the coming year.

Fire of undisclosed origin swept through a two-storey frame building of the Port Arthur Shipbuilding Co., Ltd. The building housed a punching department on the main floor and pattern works on the second floor. The company is engaged in war work, building corvettes for the Canadian government. The blaze, shown in this photo, was the plant's second serious fire within a month.

Here a smiling group of boys and girls together. It's interesting to note that the girls' team spends much time, between shore landings of the sailors, becoming expert, while they wait for their sea-going opponents to drop anchor again in this British harbor.

A Fair Return to Producers

Perhaps it is still not too much to hope that the butter pegging situation will be smoothed in a manner equitable to all concerned as most people realize that in time of war the authorities seem called upon to make decisions apparently before they have had opportunity to consider all factors. Recent press reports from Ottawa however are not encouraging, rather they indicate further injustice to the producer and the M-S-A Area, in common with the rest of the Fraser Valley is vitally concerned.

In the first place we think that the method of pegging the price is wrong. Basis of a pegged price should be an equitable return to the producer; that is the price that should be pegged. If the consuming public needs further protection then the spread to the several middlemen can also be pegged. Just how this can be done in Canada we are not sure because the picture is complicated by freight rates that discriminate against the western producer. But since that differential is permitted it can also be given consideration in the rulings of the Price Board.

The recent report that a "free" market will be re-established early in the spring only goes to show the one-sided consideration given the butter-pegging matter and demonstrates further how the farmer-producer is always the "forgotten man." If the butter price must be pegged now to protect the consumer from the gamblers in such commodities why should not a "pegged" price be maintained throughout the year. At this time the producer has a chance to make a little money the butter market, later the natural increase in milk-flow works against him there is surplus production and prices are forced down below costs. It should be equally essential to protect the producer from the consumer as the consumer from the producer—particularly when it is known that the producer has little or no control of the price he will receive or the consumer will have to pay in either season.

If the price of butter (and similar commodities) is to be pegged the pegging should be the producer price and it should be throughout the year. The gamblers in food have cleaned up big industrial profits in the past, now they are killing their game, but governments, trying to protect the consumer, should not kill the source of supply. We are glad to see the government fix food prices and control industrial wages, one is as fair as the other, but the basic factor in such pegging must be—a fair return to the producer.

Canadian Ideals and Leaders Sufficient

Here and there across Canada there are occurrences in labor ranks that are not in keeping with the public's idea of what is expected in the way of patriotic service during a time of crisis. Nothing very serious has occurred in this respect in British Columbia for some time though there was an attempt to disrupt gold production earlier in the war. However there have been some utterances at the Coast that indicated spokesmen of one faction of labor have served an apprenticeship under the disruptive and high-power tactics that have caused so much distress and disunity in the United States.

We believe there are Canadians in the ranks of Canadian labor quite able to formulate whatever policies are necessary to organize labor in this Dominion along constructive lines. We do not believe they need guidance or should accept any from other lands. At this time the cause of Canadian labor is not helped when the methods and sometimes the presence of a type of labor organizer, foreign to Canadian ideals, are permitted here.

Misleading Resolution

There is a lot of criticism voiced from interesting channels in regard to the Defence of Canada Regulations. Included in these regulations there may be drastic powers which have no doubt been included not because it is expected they will ever be necessary in dealing with Canadians but rather they are there for emergency use against subversive elements. These elements understand drastic action only and are, very likely, the sole ones who really wish to see these Regulations modified. In this connection The Vancouver News-Herald felt called upon, following labor utterances last week in Vancouver, to speak frankly on the subject and we quote the editorial, in part:

"But it is downright misleading and plainly subversive of the truth to say as do the International Woodworkers, in a resolution passed at the concluding session of their convention, that 'many if NOT ALL the traditional liberties of the Canadian people have been abrogated by government action.'"

"The fact that the Woodworkers may freely meet, discuss and spread such nonsense contradicts their own contention. It is a remarkable test of democracy in action that this same convention should have been permitted to listen to an American labor leader denouncing this war."

Perhaps we would add, the Regulations complained of are not being sufficiently enforced.

Plug the Holes

(The Comox Argus)

One way to plug the holes in the war effort vessel is to adopt the Rowell-Sirois report speedily. This report is one of the most important documents ever to be compiled in Canada. A similar plan was adopted by all the provinces of Australia when that country found itself on the verge of bankruptcy some years ago. All provincial debts were pooled and the commonwealth took over and administered all national affairs and handled all national revenues. The resultant recovery was the admiration of the world. It can be done in Canada, a much more wealthy country—and it must be done now to help cut out the great waste in the over-lapping of war effort. Canada is as yet a runner setting out to run a long distance race in an overcoat and long pants; we must shed all extra weight and train if we want to win.

Growers Seek Federal Aid To Promote Sales

Conditions which are said to be retarding the development of the small fruit and vegetable industry on the Lower Mainland and Vancouver Island were thoroughly discussed at the annual meeting of B.C. Coast Growers' Association held at New Westminster on Saturday.

As a result of the frank talks on the situation together with papers by various government officials, several resolutions were passed and will be forwarded to Ottawa with a view of amelioration. These resolutions asked for an investigation in fertilizer prices; federal aid to create greater sales to countries in which there are Canadian trade commissioners; retarding the importation of non-essentials in the matter of small fruits and vegetables, and for a federal inquiry leading to British Columbia supplying Canada with a greater volume of farming commodities during the war crisis.

H. C. Oldfield, Saanich, was re-elected president. Y. Yamago, Haney, as vice-president; E. J. Taylor, Mission, as secretary-treasurer, and R. C. Boyes, Dewdney, and Z. Inonye, Surrey, to the executive.

Speakers during the day included Dr. A. F. Bares, Ed. White, G. E. W. Clarke, Dr. H. Harris and J. J. Woods.

A. S. Rankin was chairman of the resolutions committee. Ald. J. Lewis Sangster represented the city at the gathering held in Canadian Legion hall and attended by some 60 delegates.

MATSQUI BREEDER NAMED DIRECTOR

D. S. Blacklock of Matsqui has been elected director for British Columbia to the Canadian Sheep Breeders' Association. Other provincial directors elected by the mail ballot include George L. Boswall of Charlottetown for P.E.I., G. O. Watkins of Winnipeg for Manitoba, Donald Smith of Govan for Saskatchewan and F. R. Haythorne of South Edmonton for Alberta.

DISTRICT "E" FARMERS MEET

The annual meeting of District E Farmers' Institutes will open in the City Hall at New Westminster on Friday, January 17th, at 10:30 a.m. There are 36 institutes in this district which comprises the entire Lower Mainland.

ELECTRIC INCUBATORS

S-A-V-E-T-I-M-E

Modern electric egg incubators require neither cooling nor hand-turning of eggs. They save about five man-hours a day over the old oil incubators.

Accurate temperature regulation, forced air circulation and proper humidity, insure a maximum hatch of the strongest chicks possible. The modern electric incubator brings the realization of these conditions and also greatly reduces the fire hazard.

These operating conveniences are now available to any poultryman if he will see his nearest B.C. Electric agricultural representative.

**When
Your
Telephone
Rings**

"Is it for me?" That's what
you think when the telephone
rings. You rather hope it is—for
a lot of good news and good
times come your way by tele-
phone.
Maybe it's a date for sister.
Or a golf call for dad. Or
grandma calling mother to find
out if things are all right.
And everything is more likely
to be all right when there's a
telephone in the home. For in
many ways the telephone is a
real friend of the family.
